

keyTouch MultiPlay® Chinese

MultiPlay® Chinese, developed by Keytouch Inc., is an optimized input solution that allows Chinese-character text messages to be entered easily and efficiently. Aimed specifically at the market for smart handheld devices in Asia Pacific, it supports language databases for both Simplified Chinese and Traditional Chinese. Its variety of input methods, including Pinyin, stroke, Changjie and Zhuyin, satisfy the diverse needs of users in these markets.

With this breakthrough technology, MultiPlay Chinese offers an intuitive user interface with advanced predictive text, personalized user database, and auto-learning system. It even enables PC-like functionality on mobile devices.

Features

A. Human-based User Interface

- Dynamic OSD design
- Fuzzy tolerance
- Mixed input
- Fix-any

B. Super-functional Smart Input

- Predictive input
- Next word/phrase prediction
- Simplified spelling
- Full sentence input

C. Personalized Editing and Learning

- PC-style editing – Select, Copy, Cut, Paste
- Automatic learning
- Full-sentence/ Partial-phrase learning

Technical Support

- **Operating System:**
support Symbian, Microsoft WM6, Linux and others
- **Input Languages:**
Simplified Chinese – Pinyin, Changjie, Stroke
Traditional Chinese—Zhuyin, Changjie, Stroke
- **Keyboard Types:**
can be integrated on almost any devices, with standard 12-key pads, QWERTY keyboards, hybrid-style, 20-key pads, touch-screens and more.

Key Features

User-friendly Interface

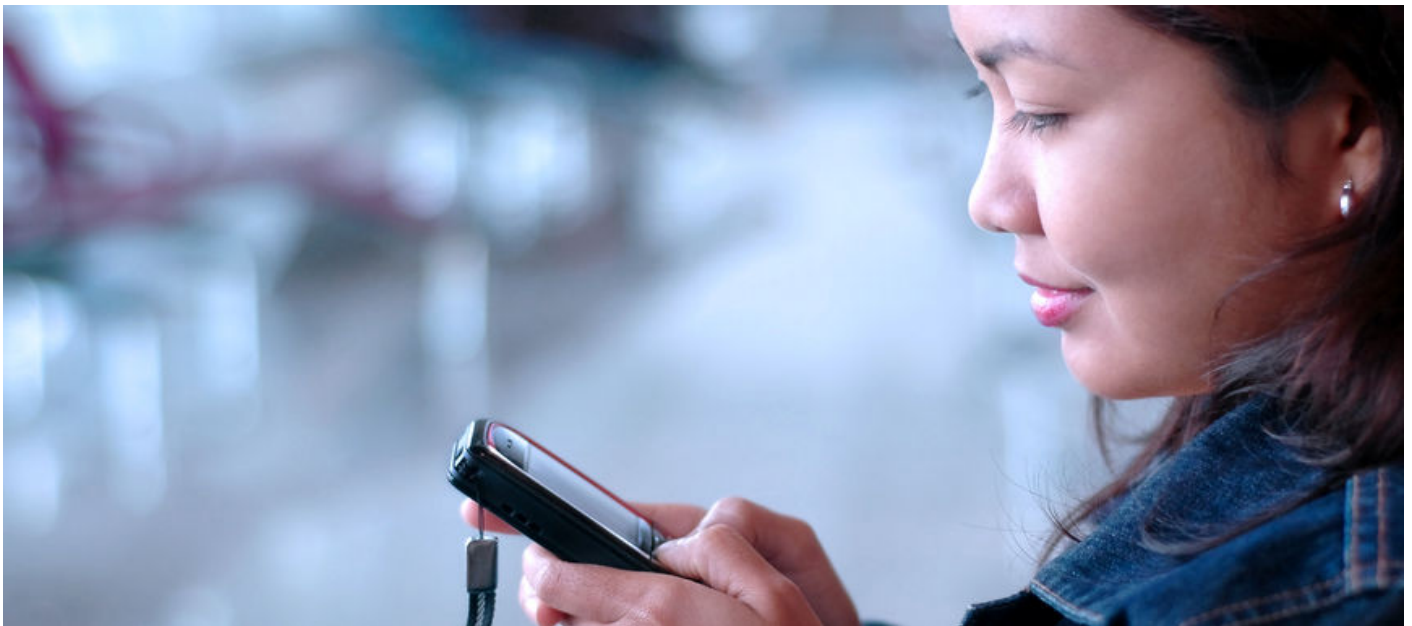

The floating inline list, with the fixed candidate list at the bottom, guides users to select the correct word/phrase.

Dynamic OSD Option

The user can choose to show/hide the OSD, and it automatically shifts position to avoid obscuring text while typing. Custom configurations of OSD can be provided.

PC-style Editing

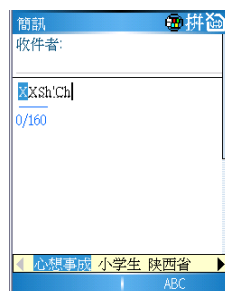

By pressing the Function keys, users can choose Select, Copy, Paste or Cut for fast, efficient text editing.

Special Features for China Market Usage

Simplified Spelling

Only enter the first sound of each word.
Example: Xin Xiang Shi Cheng (means "May your wish come true") Only enter: X-X-Sh-Ch

Full-sentence Input

Text the whole sentence one time without any space, and then use # key to mark the phrase. The engine will "remember" what you want to text efficiently. Example: text "xinniankuaile" (means "Happy New Year")
